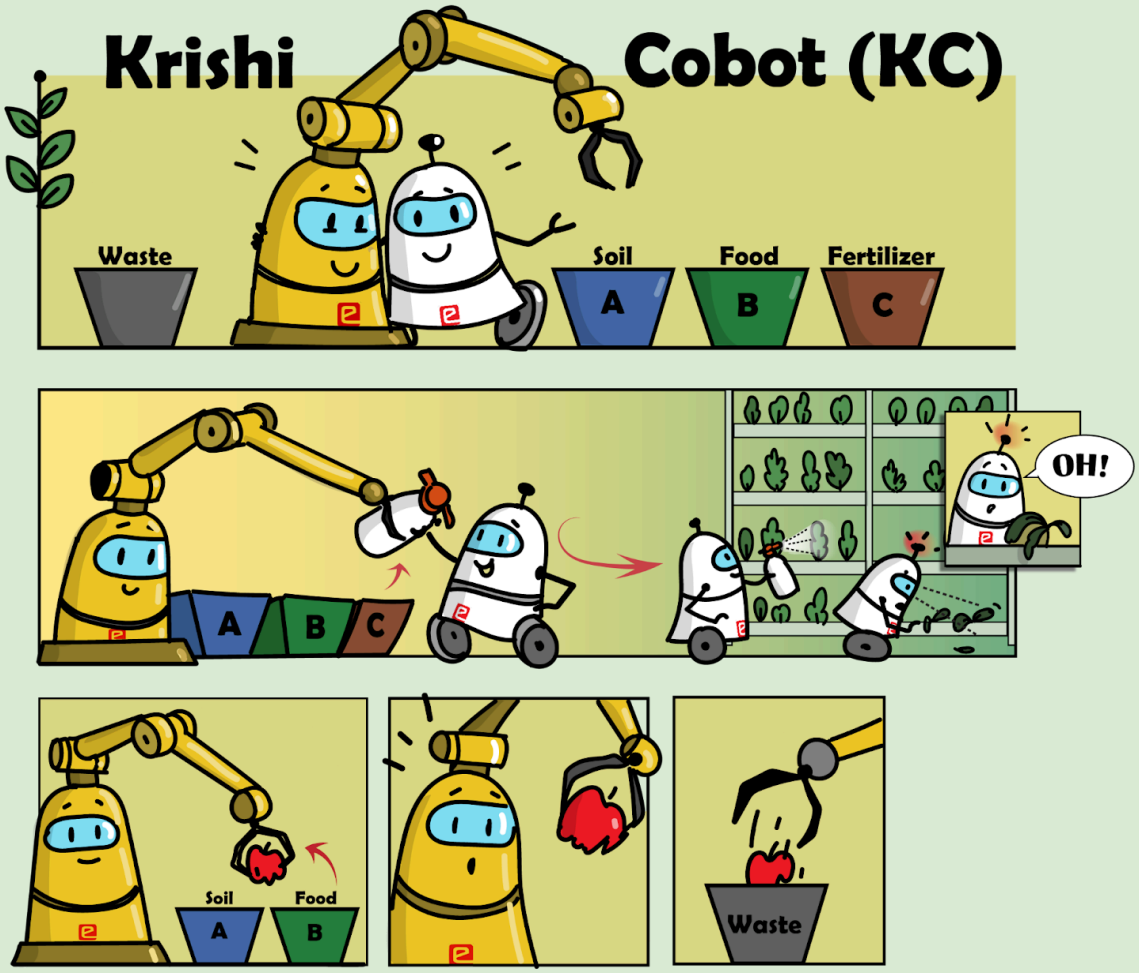
KrishiCobot (KC)

Task 6 Bonus Configuration



1. Objective:

The goal of this theme is to develop autonomous algorithms for integrated agricultural automation using coordinated mobile robot and robotic arm systems operating in a farmhouse environment.

2. Bonus Configuration:

a. UR5 Robotic Arm:

   Refer to the original configuration. The following modification are extra one:

   i. The fertilizer can will be placed deeper inside the rack.

b. eBot Mobile Robot:

   Refer to the original configuration. The following modification are extra one:

   i. One additional shape added

   ii. Two shapes will be positioned facing each other.

3. Scoring Formula :

Total Marks = (600 - T) * 0.05 + (CBI * 1) + (CBD * 5) + (CFI * 1) + (CFL * 5) + (CFU * 5) + (CPD * 5) + (CLN * 2) + (B * 10) - [(CP * 5) + (FDP * 2.5)]

Refer to the rule book to understand the formula
